

Basic Electronics Course

Duration: 16 Hours

Topics Covered:

- 1) Identification of Electronic Components
- 2) Familiarization with Digital Multimeter
- 3) Familiarization with C. R. O.
- 4) Familiarization with Function Generator
- 5) Familiarization with circuits on a Bread Board
- 6) Soldering
- 7) Familiarization with circuits on a Vero Board
- 8) Transistor Applications
- 9) IC 555 Applications
- 10) Op Amp Applications
- 11) Linear Regulated Power Supply Design
